

Divine Healing Codes and How to Use Them

I came across these codes in 2016, I find the more I use them the stronger they become. Since then I have channelled more codes and added them to this extensive list.

The codes work on the quantum level hence why they are so effective. As with all energetic healing the power comes from your intent and opening your heart to receive the love held in the Universe. Practice the codes when you feel strong to activate your personal healing power so you can pull from that reservoir when you are emotionally or physically drained. In this way you will be taking responsibility for your own self-healing for that is where all healing lies.

HOW TO USE THE HEALING CODES

The spaces between the numbers are IMPORTANT—be sure to copy them exactly as written for them to work. There are three ways to use the codes:

- The spaces between the numbers are part of the code, do not omit them.
- Copy and use the numbers exactly as written to active their power
- Placing the codes in the energy field of the body is all that is required, they do not need to be in the exact part of the body that holds discomfort.
 - write the codes in the air, big or small, you decide
 - write the codes on a note, place it in your pocket, purse, or under your pillow
 - draw the codes with your finger on your body.
- Relax, you cannot do this wrong. Love and the power of your intent are controlling the outcome.

You are not alone, Archangel Raphael and Divine Mother will actually BE present and provide added the power for the code to work.

It is your practice, skill, desire, intent, and trust that will make the difference in the Healing going from THEM through you and your aura to help what you desire to be fixed.

There is also a powerful influence of the energies that are on Gaia at this time, they have not been this high since the days of Atlantis and Lemuria—think of it as an ‘Energy Soup’ which provides the essential healing energy for these codes to work, too. The higher the vibration, the better these codes are going to work, in every way. Follow this meditation to fully sense and feel this energy.

CAN THE HEALING CODES BE COMBINED OR REPEATED?

Yes. There is no harm in mixing these codes. They can be used as often as desired to achieve the result you seek.

WHAT IF THE HEALING CODES DON'T APPEAR TO WORK?

Similar to Reiki energy healing can take place on deeper levels than what meets the eye. Illness is the result of an energy imbalance that is very difficult for most people besides psychic healers to see. When the imbalance is not corrected, it manifests in the physical mental or emotional body. So remember when you are using energy medicine, the healing goes to both the underlying energy imbalance and the physical. Sometimes the physical heals first, other times new perceptions to old problems come to mind which allow the healing to occur on a deeper level. Either way, healing is happening, trust in it.

DO THE HEALING CODES REPLACE DOCTORS?

Today more doctors in the medical community are discovering the value in energy medicine where they are joining together bringing a holistic approach to health. Patients are wise to continue to follow the wisdom of their doctors while taking responsibility for their holistic care. These codes will support medical intervention. Think of these codes as powerful ‘layers’ to add to your over all healing—much like the hands on healing of Reiki. Remember your doctors are familiar with disease and its natural progression. It is good to have someone with this knowledge to track your progress, and perhaps, see the miracle of the healing codes directly through their result on your efforts!

Love is an energy of the Highest Vibration

It is essential to life and to all healing that takes place, in everything, everywhere.

The Healing Codes are going to be organized by Systems, and this document will be updated as more and more Healing Codes come through.

They are a gift from Spirit and are to be used for free, and freely shared. Here is a reminder from both Marc Gamma and Isabel Henn, the first originators of the codes. All documents pertaining to their discovery are listed in the references of the bottom of the page. Please note that Marc has closed his blog, and some links from him may not show up.

Isabel Henn asks for this to be included in this document from this time forward—at the request of Divine Mother:

This assembly of codes and the instruction how to use them is NEVER to be sold, but always to be shared free and without any claim or exchange. It is written for the free use by all humans and all beings as I give the codes for the free use by ALL. Each human, each being has a right to use these codes free and without charge. It is also not allowed to change this assembly, unless I give my appropriate personal order for this. Without the authorization through me or as a transfer against exchange the codes will be useless, because they request a certain consciousness and a certain frequency level of the people so that they can be used. I tell you this to stop any ideas for this purpose before they even begin. This is a living document, all new codes and the links to the messages shall be integrated here.

And please remember the spaces in the number sequences as they are important. Without them the codes won't work but it would lead to far to explain it here. Be careful to write the number codes correctly."
